THE BODY CAN HEAL ITSELF THROUGH light patterns emitted by different types of cells (e.g., healthy, cancerous, infected). Then the patient's biophotons are inverted to neutralize the disturbing signal, thus allowing the body to restore it's own self-healing system, this is how biontology through the Chiren works.

WHERE THERE IS LIGHT THERE IS LIFE!!

Please read the Ode Magazine article for detailed information.

Biophoton therapy has achieved scientific recognition, and in 2008 training in biophotons became available at the Master's and Doctoral level through the Complementary Health Sciences program of Inter-University College in Graz, Austria, which represents more than 30 European universities. To date, 17 Master's thesis have demonstrated the effectiveness of the Chiren.

Here is a video of Johan at a live ODE event.

In my opinion and observations I believe this is a significant, possibly health changing paradigm, of the future.
