

**Meet and embody the force of your hidden feminine power,
which leads to transformation and freedom.**

"The world will be saved by the western woman."
--His Holiness The Dalai Lama

Women's beliefs about themselves have been indoctrinated through years of cultural, historical, and psychological conditioning. At this time in history, however, the female mind is making a unique, new and vital contribution to the world in all areas: government, politics, the corporate and business sectors, social activism, human rights, and medicine, not to mention personal and familial relationships.

As women increasingly find themselves in leadership roles, the result is a natural paradigm shift in the way power and influence have traditionally been viewed. This represents a movement away from the masculine lens of control, domination and one-upmanship towards one that is more inclusive and compassionate, emphasizing the greatest good for all.

That transition from male to female influence must be carefully navigated, as the "feminine" vision of life has not traditionally been viewed as powerful. Thus, each woman must discover the unique strengths lying within her own psyche and manifest these into the world around her in order to facilitate true and effective change. The change must first come from within her own self.

This seminar will utilize Eidetic Images to facilitate new visions of feminine power. Eidetic images are images stored in the mind, which reveal each woman's unique wisdom, power, giftedness and strength to deal with her life situations. Eidetic images bring forth the empowered states of mind already encoded within one's psyche and brings them to the surface.

This evening workshop will uncover the intrinsic powers inherent in each woman, imbued with the wisdom and strength found deep within her psyche.

Author, speaker, and psychotherapist, Jaqueline Lapa Sussman is one of the foremost practitioners of Eidetic Imagery Psychology. She has spoken and given seminars worldwide, trained top-level government officials, health care providers, CEOs of Fortune 500 companies and professional athletes, and lectured at various universities. She is the author of *Images of Desire: Finding Your Natural Sensual Self In Today's Image Filled Society* and *Freedom From Failure: How To Discover The Secret Images That Can Bring Success In Love, Parenthood, Career, And Physical Well-Being*. She writes monthly for *Total Health Magazine* and has been published in numerous magazines. For over 30 years, Jaqueline has been committed to helping people embody their soul qualities as the way to inner wellbeing and outward success.
